MICROBLADING / FEATHER BROWS

This form of Cosmetic Tattooing is semi permanent and can last anywhere from 10 - 18 months.

At your first appointment, the brow artist will discuss with you your desired outcome in terms of shape and colour.

Using specific points on your face, we design your new brows and outline them on the skin.

The brows are stroked in the pattern of your natural hair growth to make them look as natural as possible. Pigment is used and then set into the strokes.

A follow up touch up appointment is to be booked for 4-6 weeks time. The touch up appointment is necessary to further define the initial strokes and to get the longest lasting brows.

Second touch up (within 2 months) \$150

Maintenance touch up (within 12 months) \$300

OMBRE / NANO BROWS

This form of cosmetic tattooing is semi-permanent and can last anywhere from 14 - 24 months.

This technique is suited for people who have oily skin as the pigment will hold better as microblading techniques lines can blur as they heal.

Ombre method is for those who are looking for a full makeup/powder finish on the brows as the pigment is implanted into the skin using a shading technique. Using specific points on your face, we design your new brows and outline them on the skin.

Nano is similar to hairstrokes but created using a machine which is better for all clients and their skin.

Initial appointment \$550

Touch up appointment (10 weeks) \$300

Maintenance touch up (within 18 months) \$350

COMBO BROWS

Combo brows is the mixture of the two brow techniques, adding hair strokes where needed and ending the tail of the brow with a nice powdered look finish.

The touch up of another artists work will need a consult and price to be assigned.

IPL Skin Rejuvenation / Photo Rejuvenation / Acne Treatment / Pigmentation / Vascular

Intense pulses of non coherent light are distributed over a range of wavelengths to target and effectively remove pigmentation, broken capillaries, acne or for skin rejuvenation.

When treating photo rejuvenation, the transmitted light applies heat to the skin, promoting the creation of collagen and elastin fibres to replenish cells and increase cell regeneration.

We recommend 6 treatments at 3-4 week intervals and then 1 to 2 maintenance sessions every 6 months.

Buy 3 treatments up front and only pay for 2.5

AHA REJUVENATE PEEL & LED

Blending AHA's with enzymes, this bio-active peel is designed to refine and rejuvenate the skin. LED therapy can be beneficial in treating many skin concerns in a non-invasive manner. Infrared is great for healing and will improve scarring.

Blue light LED can kill bacteria that causes acne, help to balance sebum and minimise pore size.

Red light is good for overall skin rejuvenation, will help to even out skin tone, improve the appearance of fine lines and wrinkles and give your skin a glow.

Green light is ideal for treating pigmentation and reducing their appearance.

ANTI-AGEING TREATMENTS

Due to Australian Regulations, advertising cosmetic treatments has had some changes. Unfortunately we cannot describe exactly what treatments we can offer in terms of our medicine-based anti-ageing treatments.

But... YES! We do offer these treatments. The treatments offered can help with wrinkle reduction, volume loss, sagging and skin laxity.

All you need to do is book a consultation with our experienced Nurse Jess and she can discuss what medicines we offer, discuss skin goals, possible treatments to suit your facial anatomy & discuss risks associated with the treatment. If you decide that you would like the treatment on the day, there will also be time for this.

The cost of the treatment will be discussed during the consultation.

When booking online, click onto 'Cosmetic Medicines' and then book a consultation. Alternatively call or message Nurse Jess on 0447 661 089.
